

News from our Business Studies Students, 2017-2018

Business Studies Students

On Tuesday 24/10 the Year 6 business students visited Ocean Basket as part of taking learning outside the classroom and applying business theory to the real world.

Ocean Basket staff went out of their way to help students understand how the marketing, human resource and finance operations can be a source of competitive advantage for a business like Ocean Basket. The successful business model of Ocean Basket was explained to the students who were later treated to delicious sushi and seafood.

A great thanks goes out to Ocean Basket Cyprus their Operations manager Michalis Skordis and their manager from South Africa John Camacho for hosting us, and of course to our ES students for their level of maturity and enthusiasm shown throughout the trip.
